

FOR IMMEDIATE RELEASE

## Rippe & Kingston Releases New Contract Guardian Enterprise Search API

CINCINNATI, Ohio (June 19, 2014)- Rippe & Kingston Systems, Inc. a diversified information technology services firm, just announced that it has enhanced its Contract Management software solution Contract Guardian by adding a **Search Application Programming Interface (API)**.

Contract Guardian can be integrated with your existing systems via easy to use and yet power APIs. The search

API can be initiated with or without predefined parameters. Typically, clients will have an icon that will initiate the search. It will open a new window and execute the full text search. The search addresses all security concerns and constraints associated with the client/user. It then scans all documents, Meta data and attachments before returning the results. Contract Guardian delivers on its reputation for arguably the best and certainly fastest search engine in the contract management industry.

In addition to simple word or phrase search parameters, the user has the ability to use substitution parameters like \* for multiple characters or a ? for a single character. Boolean operators are provided to provide more complex search options.

**Meta Data of Contract:** Every search that has a hit on the Meta data of a contract delivers the following:

- Name of contract
- Link to the contract meta data and attachments
- Type of agreement
- Organization
- Status of contract
- Name of the field(s) where the content matches. (Note: It also highlights in yellow)
- Date contract was created
- Who (user) that created the agreement
- Date contract was modified
- Who modified the agreement

**Actual Contract and Attachments (PDF, Word, Excel, etc.):** Every search that has a hit on the content of the contract (primary attachment) and other attachments delivers the following:

- Name of agreement
- Link to the agreement and the document (contract / attachment)
- Expiration Date of attachment (if provided)
- Snippet of text surrounding the search phrase that is highlighted in yellow for each instance that it finds a match

contentText: HEALTH SYSTEMS **Ryder** Service Location Number & Name: Schedule No. Schedule A Date: TLSA Date: 3112  
contentText: the following 1 Vehicle(s): Vehicle Information **Ryder** Customer Date of Replaces **Ryder** Unit No. Unit  
contentText: execution of this Schedule and that **Ryder** will furnish any such information upon delivery of the Vehicle(s)  
contentText: A; and (iv) any other written agreement between **Ryder** and you regarding that Vehicle. Any reference  
contentText: and remedies hereunder, **Ryder** will assess a surcharge of \$0.1500 per mile for all miles over

- Date the contract was modified
- Who modified the agreement

**Truck Lease** [\(Go to Document\)](#)

Type: N/A  
Expiration Date:

Modified On: 2/12/2014 3:21:35 PM
